

POTENTIAL HAZARDOUS WASTE SITE IDENTIFICATION

REGION

SITE NUMBER

VI

TXD987980398

NOTE: The initial identification of a potential site or incident should not be interpreted as a finding of illegal activity or confirmation that an actual health or environmental threat exists. All identified sites will be assessed under the EPA's Hazardous Waste Site Enforcement and Response System to determine if a hazardous waste problem actually exists.

A. SITE NAME Big Three Industrial Gas, Inc. - Gonzales
Nitrogen Oil Well Service Company (NOWSCO)

The company provided services to oil companies including well-acidizing for oil production wells until the fall of 1986.

Site coordinates: latitude 29°31'59"N longitude 97°27'04"W

J. HOW IDENTIFIED (i.e., citizen's complaints, OSHA citations, etc.)

Environmental Priorities Initiative

K. DATE IDENTIFIED
(mo., day, & yr.)

4/21/89

L. SUMMARY OF POTENTIAL OR KNOWN PROBLEM

The facility generated wastes which included acid spillage and deposited the waste into a lined (synthetic) surface impoundment. The acid waste had been discharged to the area adjacent to the impoundment then into the drainage ditch.

The surface water flows into Tinsley Creek, then into the Guadalupe River. Designated uses for the river are contact recreation and public water supply.
